COMPENSATION:

1.60: 15 POINTS

1.49 : 10 POINTS

1.45: 8 POINTS

1.40: 6 POINTS

CLAWBACK POLICY:

If the Merchant blocks payments before Dependable Funding Receives 20 cleared payments the deal is considered a complete default and the commission will be returned, even if the Merchant unblocks payments.

(Unless there was a reasonable story, and the deal immediately continues to be in good standing).

If the Merchant bounces more than 4 payments within the first 30 days, or more than 2 payments in a row, the deal will be considered a Default, unless the Merchant agrees to “catch up” with the payments and the deal continues to be in good standing.

If the Merchant lowers payments within the first 30 days, the deal is considered a default, unless the Merchant agrees to go up again after 1 or 2 weeks (and continues so for at least 2 weeks).

In general, if we claw back commissions when a deal goes bad, and we end up collecting more than the funded amount, we will consider giving back the commissions, despite the default status, especially if the ISO helps with the collection efforts. This is done on a deal-by-deal basis, depending on the circumstances.

If we don't claw back commissions immediately after 30 days, it does not mean that the commissions will not be charged back, if the deal actually went bad within 30 days – sometimes we will try to work with the Merchant to resolve the problem and if the Merchant works with us we will hold off from clawing back the commissions, unless the Merchant refuses to work with us, which at that point we will go back and enforce the claw back policy.

The commissions get clawed back by request; we will request the ISO to send us back the money. If the ISO does not send back the money within 2 days, we will debit the ISOs account for the amount paid.
